Bourbon House Stock Market—A. M. Downing.
 MARKET—August 2, 1893.

There has been but little if any change to note in the whole live stock market at the Bourbon House during the past week. The receipts of all kinds have been large, and a fair trading business has been done. Speculators have bought freely, and greatly relieved the market.

The receipts of cattle were heavy and but few remained on the pens on sale. The purchases by Government contractors were good, and a good many were bought by persons living in the surrounding country to feed. Light cattle are dull. Heavy cattle are in demand at fair prices. The arrivals of sheep and lambs were large, and all well sold. The receipts of hogs were only moderate.

ste good, and sales have been made at fair rates for the grade of hogs. But few remain on sale.
